SUMMARY

Flutter Developer experienced in building and deploying mobile apps using Dart. Completed three full projects with strong focus on UI/UX and problem-solving, also experienced in teaching programming fundamentals. Seeking a full-time role to create high-quality, user-focused applications.

SKILLS

Technical Skills
Dart, SQL,Flutter, Firebase,Git, GitHub, Android Studio, VS Code Mobile App Development Lifecycle, UI/UX Design Principles, REST APIs, Bloc, Provider,Agile Developmen

Mentoring & Educational Skills
Curriculum Design & Development Explaining Complex Technical Concepts Public Speaking & Presentation Skills Student Engagement & Motivation

Professional & Soft Skills
Problem-Solving & Critical Thinking Teamwork & Collaboration Communication Adaptability & Fast Learning Time Management & Organization

EXPERIENCE

Programming Instructor | *M.R Robot Academy*   *Minya, Egypt* | **April 2024 – Present**
- Designed and delivered an interactive programming curriculum for over 50 students (ages 8–20), resulting in a 40% improvement in coding proficiency within six months.
- Developed and conducted 15 specialized workshops and 5 hands-on projects covering game development, app programming, and Flutter fundamentals.
- Achieved measurable progress among 85% of participants, demonstrated through performance assessments and final project evaluations.

Flutter Developer| *WhatsApp Stickers App*   **October 2025 – Present**
- Developed a mobile app offering a library of ready-made stickers with one-tap integration into WhatsApp.
- Increased user engagement through fun and shareable content, achieving over 1,000 downloads within the first month.

Flutter Developer| *Nanny & Teacher Finder Platform*   **December 2024 – February 2025**
- Built a full-featured mobile app using Flutter and Firebase to simplify the process of finding qualified nannies and teachers, reducing search time by an estimated 50% for early users.
- Implemented user profiles, rating systems, and secure messaging features to enhance trust and communication between users.

EDUCATION

High City Institute for BIS | *Bachelor's for Business Information Systems*   *Cairo, Egypt* | **01.2022 — 01.2026**
- *Specialization: Mobile App Development (Flutter) & Software Engineering*
- *Building interactive and responsive mobile UIs using Flutter and Dart*
- *Backend integration with RESTful APIs, Firebase, and SQL Databases*

PROJECTS

Creative Drawing App / *Designed and developed a creative drawing app allowing users to convert hand-drawn sketches into SVG files and custom fonts.*
